🏢 Experience

My life story book digital platform at TLSWI (Therapeutic Life Story Work International), Newcastle upon Tyne (Contract project)

February 2023 — April 2023

Full-stack developer

Collaborating with Northumbria University and Therapeutic Life Story Work (TLSW) to develop and design innovative tools for TLSW. The project centers around the creation of a 3D web-based game, tailored specifically for therapeutic applications. Additionally, implementing a sophisticated content management system ensures that the game remains engaging, relevant, and beneficial for users.

Sentimental Analysis on Climate Change at S&T Consulting, Newcastle upon Tyne (Contract project)

September 2022 — December 2022

Project manager

Working at S&T Consulting involved analyzing Twitter data through Sentiment Analysis and key phrase extraction methods to gain insights into public perceptions of climate change effects. In addition, a user-friendly web-based dashboard was created for data visualization. Project timelines, team communication, and overall planning were overseen to ensure timely completion of the project.
